INDEPENDENT AUDITORS' REPORT

To the City Commission
City of East Jordan
Charlevoix County, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of East Jordan as of and for the year ended June 30, 2008 and 2007, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of East Jordan management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

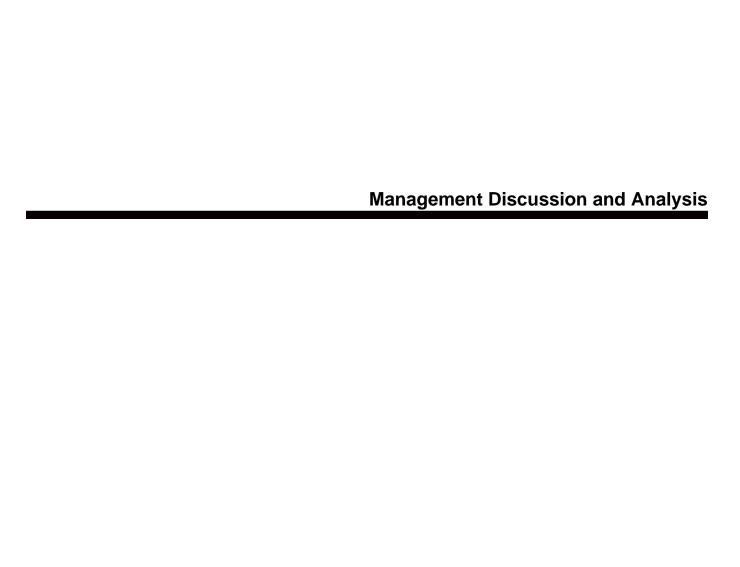

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of East Jordan as of June 30, 2008 and 2007, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of East Jordan basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Douglas Wohlberg, CPA Grand Rapids, Michigan December 19, 2008

Management's Discussion and Analysis For the year ended June 30, 2008

This discussion and analysis is intended to be an easily readable analysis of the City of East Jordan's financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the financial statements that follow.

Report Layout

This report consist of the Management's Discussion and Analysis (MD&A), government-wide statements, fund financial statements, notes to the financial statements, combining schedules of nonmajor funds and supplementary information. The first several statements are highly condensed and present a government-wide view of the City's finances. Within this view, all City operations are categorized and reported as either governmental or business-type activities. Governmental activities include basic services such as police, fire, public works, parks and recreation, community development and general government administration. These government-wide statements are designed to be more corporate-like in that all activities are consolidated into a total for the City.

Basic Financial Statements

- The Statement of Net Assets focuses on resources available for future operations. In simple terms, this statement presents a snap-shot view of the assets the community owns, the liabilities it owes and the net difference. The net difference is further separated into amounts restricted for specific purposes and unrestricted amounts. Governmental activities reflect capital assets including infrastructure and long-term liabilities. Business-type activities report capital assets and long-term liabilities. Governmental activities are reported on the accrual basis of accounting.
- The Statement of Activities focuses gross and net costs of city programs and the extent to which such programs rely upon general tax and other revenues. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.
- Fund financial statements focus separately on major governmental funds and proprietary funds. Governmental
 fund statements follow the more traditional presentation of financial statements. The City's major
 governmental funds are presented in their own column and the remaining funds are combined into a column
 titled "Other Governmental Funds." A budgetary comparison is presented for the general fund which is the
 only fund for which a budget is legally adopted. Statements for the City's proprietary funds follow the
 governmental funds and include net assets, revenue, expenses and changes in net assets, and cash flow.
- The notes to the financial statements provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the City's financial condition.

Readers desiring additional information on nonmajor funds can find it in the Combining Statements of Nonmajor Funds section of this report. Completing the financial section of the report are schedules on capital assets and other financial schedules. Finally, is the statistical section, which presents trend information and demographics.

Management's Discussion and Analysis

For the year ended June 30, 2008

Business-type Activities. The City's business-type activities consist of the Sewer, Water, Ambulance, Harbor Marina Solid Waste Transfer Station and Tourist Park funds.

Water and Sewer Fund

Operation of the water and sewer systems is paid through user fees based upon amount of metered water used. A comparison of revenues and expenditures is evaluated every year to determine whether rates are providing the necessary revenue to meet expenses of the system. The last rate increase went into effect for the quarter beginning July 1, 2006.

Tourist Park

Operation of the Tourist Park is paid through user fees based upon camper rent. A comparison of revenues and expenditures is evaluated every year to determine whether rates are providing the necessary revenue to meet expenses of the park. The last rate increase went into effect for the season beginning April 15, 2007.

Harbor Fund

Operation of the harbor fund is paid through user fees based upon seasonal and transient dock rents. The rates are set through Michigan Department of Natural Resources Parks and Recreation Bureau (Michigan State Waterways Commission). The last rate increase went into effect for the season beginning April 15, 2007.

Ambulance Fund

Operation of the ambulance fund is paid through user fees based upon basic and advance life support. A comparison of revenues and expenditures is evaluated every year to determine whether rates are providing the necessary revenue to meet expenses of the ambulance fund. The last rate increase was July 1, 2007.

Transfer Station Fund

Operation of the Transfer Station Fund is paid through user fees based upon the disposal of garbage. A comparison of revenues and expenditures is evaluated every year to determine whether rates are providing the necessary revenue to meet expenses of the transfer station fund. The last rate increase was July 1, 2007.

Management's Discussion and Analysis For the year ended June 30, 2008

Governmental activities.

Governmental activities' program expenses remained similar to prior year. There were some significant variations in some revenue items. The current budget instability at both the Federal and State levels do not allow the City financial position to improve greatly from one fiscal year to the next. I believe that the City's financial position has improved only slightly over the last fiscal year. The City of East Jordan's financial position improved because of increase property values and new or rehabilitated properties being added to the tax rolls. The City's largest employer has maintained production levels over the past year. These factors have lead to the financial condition remaining the same or increasing slightly. The only significant increase to our tax base was the completion of the new addition to a major employer. The ending General Fund fund balance would have been higher if not for decreasing State revenue. There should be no significant change in the financial position if all funding levels remain at current levels. Governmental activities' program expenses remained similar to prior year. There were some insignificant variations in some revenue items. The current budget instability at both the Federal and State levels do not allow the City financial position to improve greatly from one fiscal year to the next. I believe that the City's financial position has remained the same over the last fiscal year. The City of East Jordan's financial position remained the same because of some increased property values and new or rehabilitated properties being added to the tax rolls. These factors have lead to the financial condition remaining the same or increasing slightly. The ending General Fund fund balance would have been higher if not for decreasing State revenue. There should be no significant change in the financial position if all funding levels remain at current levels

Business-type activities

The City's business type activities continue to improve. Improvements to business-type infrastructure include replacing water mains, repairing and updating meters, leak repair on water mains, improving our pump to bill ratio, repairing and upgrading the sewer collection system each fiscal year as funding allows. This year's major work included additional water main replacement to improve the reliability of the water system. At the sewer lagoons a deep mixing system for better aeration continues to be refined. As in prior years both the EMS Fund and the Marina Fund spent funds and received grants to upgrade the physical plant and equipment. In the next fiscal year both funds will curtail capital spending to increase net assets.

Budgetary Highlights

Over the course of the year the City Commission amended the budget four times. The amendments were for grants received and bonds sold that were not budgeted for and a new fund that was put in the budget after it was adopted. The City Commission also requested that the budget be amended to allow the Commission to waive the fee for the Civic Center and Elm Pointe Departments of General Fund. In total, the General Fund's expenditures were \$192,122 less than was budgeted.

Management's Discussion and Analysis For the year ended June 30, 2008

Capital Assets and Debt Administration

Capital Assets

The City's investment in capital assets as of June 30, 2008, amounted to \$9,940,817 (net of accumulated depreciation). This investment, detailed in the following table, is invested in broad range of capital assets including land, buildings, land improvements, machinery and equipment, streets and business-type infrastructure.

	G	overnmen	tal /	Activities	es Business-type activities			Tot				
		2008		2007		2008		2007		2008		2007

Debt Outstanding

The significant long-term debt has been incurred in the DDA for the Main Street Center. The DDA sold bonds to fund the public improvements. The tax increment from the Main Street Center will service the debt. The bonds were purchased by Charlevoix State Bank, the majority owner of the Main Street Center.

The City's is not rated by Moody's and Standard and Poor's since our borrowing is not at their rating threshold. More detailed information on the City's long-term liabilities is presented in the notes to the financial statements.

Management's Discussion and Analysis For the year ended June 30, 2008

Economic Factors and Next Year's Budgets and Rates

The State of Michigan is projecting significant budget deficits

To deal with swings in the economy and to plan for future capital expansion, the City routinely puts aside resources. The City has also attempted to keep expenditures to a minimum because of the anticipated revenue problems.

The City's Downtown Development Authority is working with outside investors to build a new motel in the City. In December of 2007, the DDA received a grant in excess of \$600,000 from the Michigan Economic Development Corporation to complete infrastructure improvements at the motel site.

Financial Contact

The City's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the City's finances and to demonstrate the City's accountability. If you have questions about the report or need additional financial information, please contact the City Administrator at 201 Main Street, PO Box 499, East Jordan, Michigan 49727.

Reconciliation of Fund Balance of Governmental Funds to the Net Assets of Governmental Activities on the Statement of Net Assets

Total fund balances - total governmental funds	\$ 332,911
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:	
Capital assets at cost	8,364,865
Accumulated depreciation	(4,391,009
Net capital assets	3,973,856
therefore are not reported in the funds. Balances at June 30, 2008 were: Bonds payable	(570,000
• •	• ,
Installment purchase agreements	(282,046
Internal service funds are used by management to charge the costs of activities, such as equipment rent, to individual funds. The assets and liabilities of the internal service fund are	(98,101
	186 450
included in governmental activities in the statement of net assets. Net assets of governmental activities	\$ 186,45 3,543,07

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Net change in fund balances - total governmental funds	\$	(126,488)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of		
activities, the cost of those assets is allocated over their estimated useful lives as depreciatio expense. This is the amount of capital outlay added to capital assets.	n	46,851
Repayment of bond principal is an expenditure in governmental funds, but the repayment		-,
reduces long-term liabilities in the statement of net assets		118,439
Some expense reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:		
Depreciation		(293,835)
Employee benefits		(12,772)
Internal service fund		6,966
Change in net assets of government activities	\$	(260,839)

NOTES TO FINANCIAL STATEMENTS

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of City of East Jordan conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by City of East Jordan:

A. Reporting Entity

City of East Jordan is governed by an elected seven-member Commission. The accompanying financial statements present the government and its component unit, an entity for which the government is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely Presented Component Units

The City of East Jordan Downtown Development Authority accounts for property tax and bond proceeds that are earmarked for improvements in a downtown area of the City and repayment of DDA issued bonds. The component unit column in the combined financial statements include the financial data of the City's Downtown Development Authority. This unit is reported in a separate column to emphasize that it is legally separate from the City. The members of the governing Board of the Downtown Development Authority are appointed by the Mayor. The budgets and expenditures of the Downtown Development Authority must be approved by the City Commission. The City also has the ability to significantly influence operations of the Downtown Development Authority. Complete financial statements of the Downtown Development Authority can be obtained at the City of East Jordan, 201 Main Street, East Jordan, Michigan, 49727.

The East Jordan Housing Commission is a Public Housing Agency created by the City of East Jordan on February 7, 1967. The Commission was established to provide low-rent housing, under the low rent program Annual Contributions Contract, for qualified individuals in accordance with rules and regulations prescribed by the Department of Housing and Urban Development and other Federal agencies.

The City has no blended component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

The City of East Jordan's property tax is levied on each July 1 on the taxable valuation of property (as defined by State statutes) located in City of East Jordan as of the preceding December 31st.

The 2007 taxable valuation of City of East Jordan totaled \$70,104,401 and the IFT taxable valuation totaled \$1,445,064 on which ad valorem taxes levied consisted of the following:

	Mills levied	Raising
Operating	17.7953 \$	1,247,529
Operating IFT	8.8976	12,858
Fire debt	0.4448	31,182
Fire debt IFT	0.2224	321

The City reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Major Streets Fund accounts for Act 51 money received from the State of Michigan for the maintenance and construction of streets in the City.

The Fire Equipment Fund accounts for property taxes levied to finance capital purchases for the fire department.

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

The City reports the following major proprietary funds:

The Sewer Fund accounts for the activities of the sewage collection system.

The Water Fund accounts for the activities of the water distribution system.

The Tourist Park Fund accounts for the activities of the City owned campground.

The Marina Fund accounts for the activities of the City owned marina.

The Transfer Station Fund accounts for the activities of the City owned solid waste collection facility.

The Ambulance Fund accounts for the activities of the City owned paramedic service.

Additionally, the government reports the following fund types:

The Internal Service Fund accounts for major machinery and equipment purchases and maintenance provided to other departments of the government on a cost reimbursement basis.

Trust and agency funds to account for various deposits.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The City has elected to also follow private-sector standards issued after November 30, 1989 for its business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's business-type functions and various other functions of the government. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenue include:

- (1) charges to customers or applicants for goods, services or privileges provided;
- (2) operating grants and contributions; and
- (3) capital grants and contributions, including special assessments.

Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relate to charges to customers for sales and services. The water and sewer funds also recognizes the portion of tap fees intended to recover current costs (e.g., labor and materials to hook up new customers) as operating revenue. Tap fees intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

D. Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments--Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables--In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes attach as an enforceable lien on property as of July 1. Taxes are levied July 1 and are payable through July 31. All property taxes not paid by July 31 are deemed delinquent.

Inventories and Prepaid Items--Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets--Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Buildings	40 to 60 years
Building improvements	15 to 30 years
Water and Sewer Lines	50 to 75 years
Roads	10 to 30 years
Other infrastructure	10 to 30 years
Vehicles	3 to 5 years
Office equipment	5 to 7 years
Computer equipment	3 to 7 years

Compensated Absences (Vacation and Sick Leave)--It is the government's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. Unused vacation and sick leave are paid to employees upon termination under limits that vary by employee group.

All vacation pay is accrued when incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year-end.

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

Long-Term Obligations--In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity--In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Comparative Data and Reclassifications--Comparative total data for the prior year have been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds.

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 2-STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information--Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

The City normally follows these procedures in establishing the budgetary data reflected in the financial statements:

On or before May 1, the City Administrator submits to the City Commission, a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them.

A public hearing is conducted at the City Hall to obtain taxpayer comments.

On or before May 15, the budget is adopted by ordinance.

The transfer of budgeted amounts between departments within any fund or any revisions that alter the total expenditures of any fund must be approved by the City Commission.

Budgeted amounts are presented as originally adopted, or as amended by the City Commission before June 30. Individual amendments were not material in relation to the original appropriations which were amended.

Budgets as presented for the general and debt service funds are prepared on the modified accrual basis of accounting on the activity level. Encumbrances are not recorded at year end. Budget appropriations lapse at the end of each fiscal year.

Budgetary amounts reported herein are as originally adopted, or as amended by the City Commission throughout the operating year.

The City legally adopts budgets for the General Fund, Special Revenue, Debt Service and Capital Project funds.

Budgets shown in the financial statements are adopted on a basis consistent with generally accepted accounting principles, and consist only of those amounts contained in the formal budget approved as amended by the City Commission.

The legal level of control is at the activity level of the General Fund, and at the fund expenditure totals for the Special Revenue, Debt Service and Capital Project funds.

The City Treasurer is authorized to transfer budgeted amounts between accounts within the same department. Revisions that alter the total expenditures of any fund or total department expenditures must be approved by the City Commission.

The budget document presents information by fund, function, department and line items. The legal level of budgetary control adopted by the governing body is the department level.

Amounts encumbered for purchase orders, contracts, etc., are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Charlevoix County, Michigan Notes to Basic Financial Statements

For the year ended June 30, 2008

During the year, the City of East Jordan incurred expenditures in certain budgeted funds which were in excess of the amounts appropriated, as follows:

	Budget appropriation	Actual Expenditure
General Fund		
Administrator	\$ 80,542 \$	81,412
Street lighting	37,000	41,664

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

Note 3 - DEPOSITS AND INVESTMENTS

State statutes and the City's investment policy authorize the City to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have an office in Michigan; the City is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The City's deposits are in accordance with statutory authority.

As of June 30, 2008, the City had the following deposits.

Huntington National Bank	\$ 1,324,832
Charlevoix State Bank	419,897
Total	\$ 1,744,729

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The City has no investment policy that would further limit its investment choices.

Concentration of Credit Risk. The City places no limit on the amount the City may invest in any one issuer. More than five percent of the City's deposits are in the Huntington National Bank and Charlevoix State Bank. These investments are 75.93% and 24.07%, respectively, of the City's total deposits.

At year end, the City's deposits and investments were reported in the basic financial statements in the following categories:

	Governmental	Business Type		Total Primary
	Activities	Funds	Fiduciary Funds	Government
Cash and investments	\$ 409,952 \$	1,254,885 \$	184,574 \$	1,849,411

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 4 - RECEIVABLES

Receivables as of year-end for the City's individual major and nonmajor funds including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Major Streets Fund	Local Streets Fund	Fire Equipment Fund	Sewer Fund	Water Fund	Ambulance Fund	Total
Taxes receivable	\$ -	\$ -	\$ -	\$ 667	\$ -	\$ -	\$ -	\$ 667
Accounts	8,583	-	-	-	102,284	144,481	200,257	455,605
Intergovernmental	51,340	23,594	8,308	-	-	-	-	83,242
Net Receivables	\$ 59,923	\$ 23,594	\$ 8,308	\$ 667	\$ 102,284	\$ 144,481	\$ 200,257	\$ 539,514

Governmental funds report deferred revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	Unavai	lable	Unearned		
Customer deposits	\$ -	\$	3,800		

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 5 - CAPITAL ASSETS

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 7 - LONG-TERM DEBT

The City issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. Contractual agreements and installment purchase agreements are also general obligations of the City. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

Total interest expense incurred for the City for the year was \$88,261.

Bond and contractual obligation activity can be summarized as follows:

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 9 - EMPLOYEE RETIREMENT AND BENEFIT SYSTEMS

Defined Benefit Pension Plan -

Plan Description--The City of East Jordan participates in the Michigan Municipal Employees' Retirement System (MERS), an agent multiple-employer defined benefit pension plan that covers some employees of the City of East Jordan. The system provides retirement, disability and death benefits to plan members and their beneficiaries. MERS issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the System at: 1134 Municipal Way, Lansing, Michigan 48917.

Funding Policy--The obligation to contribute to and maintain the system for these employees was established by negotiation with the City of East Jordan's competitive bargaining units and requires a contribution from the employees of 2 percent of gross wages from Public Works employees, 3 percent from Department Heads and General employees and 6 percent of gross wages from Police employees.

Annual Pension Costs --For year ended December 31, 2007, the City of East Jordan's annual pension cost of \$144,685 for the plan exceeded the required contribution. The annual required contribution was determined as part of an actuarial valuation at December 31, 2006, using the entry age normal cost method. Significant actuarial assumptions used include: (i) an 8 percent investment rate of return; (ii) projected salary increases of 4.50 percent per year; and (iii) 0.00 to 8.40 percent per year merit and longevity increases. Both determined using techniques that smooth the effects of short-term volatility over a four-year period. The unfunded actuarial liability is being amortized as a level percent of payroll on a closed basis. The remaining amortization period is 30 years.

Three year trend information as of December 31, 2007 follows:

	2005	2006	2007
Annual pension cost	\$ 99,673 \$	146,315 \$	144,685
Percentage of APC Contributed	100.00 %	100.00 %	100.00 %
Actuarial value of assets	\$ 2,483,887 \$	2,670,595 \$	2,849,694
Actuarial accrued liability	\$ 2,849,441 \$	3,224,885 \$	3,443,258
Unfunded AAL	\$ 365,441 \$	554,290 \$	593,564
Funded ratio	87 %	83 %	83 %
Covered payroll	\$ 864,114 \$	821,015 \$	875,357
UAAL as a percentage of covered payroll	42 %	68 %	68 %

Charlevoix County, Michigan Notes to Basic Financial Statements For the year ended June 30, 2008

NOTE 10 - RISK MANAGEMENT

The City of East Jordan is exposed to various risks of loss related to property loss, torts, errors and omissions and employee injuries (workers' compensation), as well as medical benefits provided to employees. The City of East Jordan participates in the Michigan Municipal Risk Management Authority for all claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal Risk Management Authority risk pool program operates as a claims servicing pool for amounts up to member retention limits, and operates as a common risk-sharing management program for losses in excess of member retention amounts. Although premiums are paid annually to the Authority, that the Authority uses to pay claims up to the retention limits, the ultimate liability for those claims remains with the City of East Jordan.

The Michigan Municipal Risk Management Authority's State Pool program operates as a common risk-sharing management program for local units of government in Michigan. Member premiums are used to purchase excess insurance coverage and to pay member claims in excess of deductible amounts. A portion of the excess insurance coverage is underwritten by the City itself.

NOTE 11 - OTHER POST-EMPLOYMENT BENEFITS

The City has no post-retirement benefit plans at this time other than its pension plan.

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

To the Commission City of East Jordan Charlevoix County, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of East Jordan for the year ended June 30, 2008, and have issued our report thereon dated December 19, 2008. Professional standards require that we provide you with the following Information related to our audit

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated November 11, 2008, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on Authority.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by City of East Jordan are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Describe most significant estimate(s)

Management's estimate of the lives of capital assets is based on management's experience and estimates. We evaluated the key factors and assumptions used to develop the lives of capital assets in determining that It is reasonable in relation to the financial statements taken as a whole.

The disclosures in the financial statements are neutral, consistent, and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of risk management in Note 8 to the financial statements. The City is exposed to various risks related to property loss, torts, errors and omissions and employee injuries. The City is covered by insurance through the Michigan Municipal Risk Management Authority..

To the City Commission
City of East Jordan
Charlevoix County, Michigan

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management In performing and completing our audit.

Audit Adjustments (Corrected and Uncorrected Misstatements)

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either Individually or in the aggregate, to the financial statements taken as a whole.

\$14,715 to correct posting of Major Streets Act 51 revenue in the General Fund \$5,176 to correct posting of Local Streets Act 51 revenue in the General Fund \$8,583 to eliminate Housing Commission expenses form the General Fund \$51,682 to reclassify transfers from various funds to the Rehabilitation Fund \$50,721 to reclassify principal paid on long-term debt in the Equipment Fund \$8,321 to reclassify principal paid on long-term debt in the Ambulance Fund \$275,671 to reclassify dredging expenses in the Harbor Marina Fund \$98,000 to reclassify principal paid on long-term debt in the Water Fund

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated City.

Management Consultations With Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

To the City Commission City of East Jordan Charlevoix County, Michigan

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Commission and management of City of East Jordan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Grand Rapids, Michigan

)onglas Welley
